Durg Manglam Projects Pvt. Ltd. is a prominent name in the field of Material Handling Equipments. Understanding the needs of this important activity for diverse businesses, we Manufacture, Supply and Export a wide array that can also be customized in accordance with clients' needs.

We have acquired specialization in offering Industrial Conveyors and Vibrating Screens that are made using imported Chains & Conveyor Belts from reputable companies. Advanced features in terms of efficiency, consistent performance, longer functional, and ease of operation separate the models offered by us from other such equipment's.

Quality is an aspect permeating every aspect of our operations and we have been rated by ONICRA, which has strengthened our market standing in this domain. Based in Haryana, India, we are catering to clients all across India and in the European, Gulf, African and Asian countries. With client satisfaction as our primary aim, we have developed a strong infrastructural base to streamline the production and successfully deal with the most challenging demands.

Our Location

We are located in Industrial Area of I.M.T. Manesar, Gurgaon, which is approximately 30 minutes drive on National Highway – 8 from New Delhi Indira Gandhi International Airport.

Our unit is spread over an area of 1 Acre. in I.M.T. Manesar, Gurgaon and operational with cutting-edge machinery for standard and customized production. The facilities are supported by expert engineers, foremen and QC personnel who assure that the activities meet international standards. Besides, we have spacious and well-managed warehouses that further reduce the lead-time for deliveries and enable us to maintain a substantial stock in a safe manner.

Our Services

We provide value-added services to the esteemed clientele in addition to the advanced Material Handling Equipment's. This is to ensure that clients get total value and more for the money invested. The quality services offered by us for all needs of the clients includes...

- Material handling equipment designing
- Operational flow
- Controls
- Equipment specification
- Computer aided drawings
- Project management
- Space analysis
- Installation teams.
- We are a team of Engineers, Design Engineers and Service Engineers with more than three decades of experience in the industry. Neck to neck competition from our contemporaries has helped us to embark on the improvement of an already above par infrastructure. Our in-house manufacturing unit is an amalgamation of cutting edge technology and ultra-modern machineries.
- To understand the special needs of our clients, our engineers, workers and quality conscious professionals work in close co-ordination with them and engineer world class products in accordance with international norms of quality and safety.
- Our modern and spacious warehouse gives us an impetus to distribute our products anywhere in the world within the set time frame.

Product Spectrum

- Meticulous planning and Technical Expertise have resulted in our range of Engineered products. Our gamut of Material Handling Equipment and System suits Indian Standards as well as International Standards of Quality and Precision.
- S
- These material handling systems are used for conveying homogenizing mining loading and unloading of raw materials minerals and goods.

Material Handling Equipment

- Avail a range of advanced Material Handling Equipment's from Durg Manglam Projects Pvt. Ltd. is a prominent Manufacturer, Exporter and Supplier. The range available includes Industrial Conveyors, Bucket Elevator, Vibrating Screens and Special Purpose Machinery in a number of standard models that can also be customized as per specific requirements. Designed using C.A.D. and meticulously engineered, the array is fabricated as per Indian and international standards. Made using imported Conveyor belts and Chains, the range is highly appreciated for its performance.
- Specially designed by Experts, the range is useful for Conveying, Storing, Crushing, Homogenizing, Mining, Loading and Unloading of Raw Materials, Minerals and Goods of various types. Due to this, it is widely demanded by Automobile, Food, Construction, Scrap Processing plants & Textile Industries. The Material Handling Equipment's are manufactured using latest technologies to ensure maximum efficiency, easy operation, minimal maintenance, longer working life, and so forth. Catering to varied expectations of clients, we also package the Equipment's in thick plastic sheets. Besides the above-mentioned range, we also offer Goods & Passenger Lifts, Bucket elevators, Vibrating Screens, Crushers etc.

Quality Statement

D.M.P.P.L. defines utility in terms of successful performance of attributes such as excellence in Design, Material suitability, Manufacturing compliance, Workplace efficiency, Safety and Cleanliness, Timely delivery and Business process effectiveness that are entrusted to us by our clients

D.M.P.P.L. complies with its Quality System by continually improving Technical Capabilities, Shop Floor work processes, material selection and use through effective and focused training

D.M.P.P.L. encourages feedback and suggestions from employees, customers and suppliers that could enhance Quality, Increase Productivity, and Provide an environmental or workplace benefit and takes positive action accordingly.

Quality Assurance and Quality Control.

D.M.P.P.L. has full-fledged quality assurance and control system and is accredited with ISO. requirements.

Our Team committed to assist clients to execute projects as per the quality plans and project specifications without any compromise on quality from material procurement to dispatch stage including final Project Quality document submission. We have an excellent track record of quality and workmanship.

Quality Control & Assurance

We are an ISO 9001:2008 certified company.

With regard to Quality Assurance, we continuously strive to exceed the expectations of our clients through stringent quality checks, right from the procurement of the raw material to the dispatch of the finished products in the market.

We obtain our raw materials from the leading manufacturers and conduct strict checks on them to ensure our clients get the best.

To ensure that there are no lapses in the entire process, we have quality managers and supervisors.

Health Safety Policy

Durg Manglam Projects Pvt. Ltd. is committed to perform all daily activities in a controlled manner so as to preserve the health and safety of our Employees, Contractors and Customers while simultaneously minimizing the impact that our activities have on the environment. We operate in compliance with all relevant environmental legislation and constantly strive to conduct all activities in an Efficient and Eco-friendly manner.

Comply with all applicable laws and regulations pertaining to area of operation.
